

Kitsap Regional Coordinating Council

Land Use Technical Advisory Committee (LUTAC)

August 9, 2018 | 9:30-11:30 am | Poulsbo City Hall, First Floor (200 Moe Street NE, Poulsbo)
Draft Agenda v.7-26-18

Purpose: The purposes of this meeting are to discuss: (a) comment letters regarding the Growth Management Act; and (b) linear 2050 population projections for jurisdictions to advise PlanPOL and the Board on how to provide feedback on the development of VISION 2050.

A. Welcome and Business

Objective: Maintain the business and operations of KRCC.

- Review of [KRCC calendar](#) (page 2)
- Review/accept draft [5/10/18 meeting summary](#) (page 3)

B. Countywide Coordination

Objective: Provide a forum for land use planners across Kitsap to share information and resources, and coordinate on Growth Management Act (GMA) technical feedback.

- Discuss key talking points for jurisdictions' individual comment letters to the Ruckelshaus Center regarding the "Roadmap to Washington's Future" project. See [Kitsap County's talking points](#) (page 6).
- Commerce, Regional Staff Committee, and Buildable Lands Working Group updates
- Emerging issues
- Other roundtable updates

C. Recommendations for PlanPOL and KRCC Board

Objective: Develop technical guidance for PlanPOL and the KRCC Board to consider regarding VISION 2050 and other issues.

- Review the "[No Action Alternative](#)" [population projections for 2050](#) (page 8) to help prepare policy makers for participating in the development of the Environmental Impact Statement (EIS) for VISION 2050. *Note: While these provide jurisdiction-level extension of the Regional Growth Strategy in VISION 2040 to the year 2050, they are not adopted policy or a substitute for the local target-setting process. VISION 2050 will include growth shares for regional geographies (not individual cities) and for a longer plan horizon than growth targets.*
- Answer the following questions:
 - i. What are the linear 2050 growth projections for Kitsap jurisdictions?
 - ii. Given these growth projections, could your jurisdiction's current zoning accept the anticipated growth levels for 2050? See the [2014 Buildable Lands Report](#) (web link) or the [BLR Executive Summary](#) (page 9).
 - iii. If your jurisdiction cannot accept anticipated growth, what reasonable measures might your jurisdiction employ?
- Discuss agenda items for the October 18 PlanPOL meeting.

D. Next Steps

Objective: Ensure follow-up on proposed ideas and tasks.

- Review and assign action items from the meeting.
- Adjourn
