1. Post the approved November 10 LUTAC summary to the KRCC website.	KRCC Staff	Complete
2. Provide jurisdictions information about 2020 – 2022 growth in the Urban Growth Areas (UGAs) associated with cities.	Eric Baker	In Progress
3. Communicate with the Department of Commerce about their presentation during the February 7 KRCC Board meeting.	KRCC Staff	In Progress
4. Communicate with the Department of Commerce about LUTAC's housing target questions.	KRCC Staff	In Progress
5. Draft the 2022 annual annexation report.	KRCC Staff	Complete

1. Welcome and Introductions

Sophie Glass, KRCC staff, welcomed LUTAC members to the December 8 meeting. She reviewed the meeting objectives and topics. Attachment A lists the LUTAC members and other presenters in attendance.

2. Old Business

- a. **Meeting Summary Review:** LUTAC members reviewed the November 10 meeting summary. They did not raise any comments or concerns. KRCC staff will post the summary to the KRCC website.

3. Committee Updates and Work in Progress

a. Population and Employment Growth Allocation Process:

- Discuss jurisdictions' approaches to 2022 population and employment numbers:**
Sophie reminded LUTAC members that, during the November LUTAC meeting, they began discussing the potential need for jurisdictions to grow their 2020 population and employment numbers to 2022 to allow for accurate comparisons regarding land capacity for the 2024 Comprehensive Plan.

LUTAC members from Port Orchard, Poulsbo, and Bremerton shared that their jurisdictions plan to add actual development that occurred between 2020 and 2022 to the 2020 population and employment numbers. They do not plan to re-run land capacity analyses for 2022.

Eric Baker offered to provide jurisdictions information about growth in the Urban Growth Areas (UGAs) associated with cities.

Kitsap Regional Coordinating Council

LUTAC members discussed the methodology of identifying growth between 2020 and 2022. They considered whether it would be accurate to assume that all developments that have been built are fully occupied. They also considered whether the counts should be based on final permits or occupancy permits.

LUTAC members agreed to continue this conversation at the January LUTAC meeting.

b. Housing Target Allocation Process:

- **Initial housing target outcomes from Commerce's methodologies:** KRCC staff shared Commerce's draft Housing for All Planning Tool (HAPT) spreadsheet. The spreadsheet includes draft housing targets based on two allocation methodologies: Methodology A and Methodology B.

LUTAC members shared the following comments:

- Methodology A does not acknowledge that some jurisdictions already have housing stock under 80% Area Median Income (AMI).
- Methodology B includes negative numbers; LUTAC members would need guidance from Commerce about how to approach negative numbers.
- Methodology B targets a large amount of housing in rural areas, but existing policies discourage growth in rural areas.
- The persons per household number used in the HAPT is significantly lower than the persons per household number that jurisdictions are using in their individual plans.
- It would be helpful to have separate lines in the HAPT that show Silverdale, Kingston, Central Kitsap, and each of the UGAs associated with cities.
- Each of the Kitsap jurisdictions is working on or has developed some form of Housing Action Plan.

LUTAC members noted that Kitsap could choose to use its own methodology, and identified several considerations that a new methodology should incorporate:

- Existing supportive services
- Recognition of existing affordable housing
- Recognition of land costs in jurisdictions
- Station area planning along the planned High-Capacity Transit routes
- Individual jurisdictions' conversations
- Jurisdictions' Housing Action Plans
- Excluding new construction of <80% AMI in rural areas and measures to strive to prevent displacement of existing <80% AMI housing
- Separate numbers for Silverdale, Central Kitsap, Kingston, and UGAs associated with cities

LUTAC members shared the following questions for Commerce staff:

- Would it be possible for the HAPT to break out Unincorporated Kitsap County so that it has separate lines for Silverdale, Kingston, Central Kitsap, and each of the UGAs associated with cities (Poulsbo UGA, Port Orchard UGA, Bremerton UGA)?

Kitsap Regional Coordinating Council

- For the HAPT, what were Commerce's assumptions regarding persons per household?
- If Kitsap uses its own methodology for developing housing targets, can this methodology exclude rural areas from <80% AMI?
- How do housing targets developed as part of this process relate to housing targets that jurisdictions develop as part of their individual Housing Action Plans?

LUTAC members requested that KRCC staff take the following next steps:

- Identify existing social service providers.
- Gather housing targets from jurisdictions' housing needs assessments.
- Connect with staff from King County, Snohomish County, and Pierce County to understand their approaches to developing housing targets.

- c. **2023 Land Use Meeting Plan:** Sophie shared that the KRCC Executive Committee was in support of additional LUTAC meetings in 2023 and adjusted the KRCC budget accordingly. The Executive Committee also recommended that the February 7 KRCC Board meeting be a study session about housing targets, including an overview from the Department of Commerce. The KRCC Board approved the adjusted budget during the December 6 Board meeting.

LUTAC members recommended that Commerce's presentation on February 7 focus on implications of HB 1220 on jurisdictions' planning processes. They also recommended that Sophie lead the presentation about Commerce's methodologies.

LUTAC members added draft topics to LUTAC and PlanPOL meetings within the tentative 2023 KRCC land use meeting plan.

4. Administrative Agenda

- a. **Annual Annexation Report:** LUTAC members shared that no jurisdictions completed annexations in 2022. KRCC staff will draft the annual annexation report.
- b. **Puget Sound Regional Council (PSRC) Regional Staff Committee Appointments:** LUTAC members edited the draft KRCC LUTAC roster and draft roster of KRCC appointees to the PSRC Regional Staff Committee.

5. Wrap Up

- a. **Recap:** Sophie reviewed the decisions and action items listed in the table above.

12/23/22

1. **Question: Would it be possible for the Housing for All Planning Tool to break out Unincorporated Kitsap County so that it has separate lines for Silverdale, Kingston, Central Kitsap, and each of the UGAs associated with cities (Poulsbo UGA, Port Orchard UGA, Bremerton UGA)?**

Commerce's Response: Unfortunately, this is not a level of detail we can provide in a statewide tool. We will be able to break out unincorporated Kitsap County into unincorporated UGA areas and those areas outside of UGAs, but nothing more with this scope of work.

2. **Question: For the HAPT, what were Commerce's assumptions regarding persons per household?**

Commerce's Response: Future household size or persons per household is developed uniquely for each county. Commerce developed unique household size projections by county based on actual estimates from the 2020 Census as well as the impacts of projected demographic shifts—specifically the breakdown of projected population by age group. More details on this methodology and assumptions can be found on pages 7-10 in our [projection methodology](#).

3. **Question: If Kitsap uses its own methodology for developing housing targets, can this methodology exclude rural areas from <80% AMI?**

Commerce's Response: The county may choose any method of allocating housing needs to the areas in the county so long as it meets the minimum allocation requirements in our [allocation guidance](#). These minimum guidelines can be found on page 5. This proposed approach seems to be consistent with the minimum allocation requirements so long as it is consistent with relevant countywide planning policies and multicounty planning policies.

4. **Question: How do housing targets developed as part of this process relate to housing targets that jurisdictions develop as part of their individual Housing Action Plans?**

Commerce's Response: We will be coming out with guidance on this in February, but a jurisdiction's countywide allocated housing targets are what jurisdictions will be held to from a planning standpoint. The housing needs identified in the Housing Action Plan should inform HOW the jurisdiction will plan to meet the allocations, especially since the goal of a Housing Action Plan is to identify housing strategies to meet the local needs. For example, if a jurisdiction is allocated 500 units of 0-30% AMI housing units – who will need those housing units in the city? That population's needs and housing characteristics should inform how the city plans to encourage that housing typology and where that housing should go. If the need for the 0-30% AMI housing is primarily elderly or retired individuals, the jurisdiction would want to plan and encourage smaller, ADA accessible units with low maintenance in amenity rich areas. If those needs were for single adults or young families, those approaches to planning would be slightly different.

Puget Sound Counties' Approach to Housing Targets

12/22/22

Jurisdiction: King County

Status: King County adopted housing targets as a part of its 2021 Countywide Planning Policies update. Now jurisdictions are squaring those targets with the new need requirements from HB 1220.

Process:

Figure 1: Growth targets setting process

*PAA = Potential Annexation Area

Methodology:

Jurisdictional Housing Need Allocation Options

Methodological options under consideration by the Affordable Housing Committee to allocate shares of permanent countywide need to jurisdictions include the following:

- **Option 1: Focus on new growth:** Same percent shares of new housing growth are affordable in every jurisdiction
- **Option 2: Focus on 2044:** Same percent shares of total housing stock in 2044 are affordable in every jurisdiction
- **Option 3: Focus on new growth adjusted for local factors:** Same percent shares of new housing growth are affordable in every jurisdiction and adjusts outputs within each income band by three factors:
 - 1) Percent share of housing that's currently affordable at 0-80% AMI;
 - 2) Percent share of housing that's currently income restricted at 0-80% AMI;
 - 3) Subregional ratio of low-wage jobs to low-wage workers

Lessons Learned:

- TBD (meeting in mid-January)

Jurisdiction: Snohomish County

Status: Snohomish County has developed draft 2044 initial housing targets for jurisdictions that are still under review at the various Snohomish County Tomorrow committees.

Process:

Methodology:

Essentially, Method C builds off of Method A but gives jurisdictions “credit” for their existing affordable housing supply to be closer to Commerce’s fair share model but avoids the negative numbers that Method B generates. Commerce’s guidance provides for the ability of counties to work in collaboration with their cities and towns to adjust the outputs of the HAPT tool, provided that the sum of the adjusted housing needs allocated to local jurisdictions adds to the total countywide housing need projection. This should be the case for each income level, PSH and emergency housing. The calculation of the Method C allocation specifically involved:

- Comparison of the percent distribution of housing supply affordable by income category within each jurisdiction in 2020 with the percent distribution of countywide housing supply affordable by income category in 2020.
- For those jurisdictions which are underrepresented in 2020 in an income category relative to the countywide shares, the Method A 2020-2044 housing allocation within that income category was increased by an amount identical to the jurisdiction’s numeric underrepresentation.
- For those jurisdictions which are overrepresented in 2020 in an income category relative to the countywide shares, the Method A 2020-2044 housing allocation within that income category was reduced by an amount identical to the jurisdiction’s numeric overrepresentation.

- If a jurisdiction was overrepresented in an income category by an amount which exceeds the Method A 2020-2044 housing allocation within the income category (creating a negative future growth assignment), then the growth amount within that income category was set to zero and a proportional redistribution of housing needs for the jurisdiction's remaining income categories with positive growth is calculated.
- Jurisdictional allocations of housing need by income category were controlled to Commerce's countywide housing need by income category and the jurisdiction's 2020-2044 housing growth target.
- Countywide Permanent Supportive Housing and emergency housing needs are allocated in proportion to the jurisdiction's target share of countywide housing unit growth.

OVERVIEW OF HOUSING TARGET METHODOLOGIES

Methodology A

Assumes all housing needs are accommodated through new housing production

Methodology B

Assumes all jurisdictions accommodate equivalent shares of total countywide housing need at each income level, proportional to their size (can result in negative allocations)

Methodology C

To Be Developed by Kitsap

Could consider:

- Point in Time counts
- Recognition of supportive services in existence (note: potential risk of perpetuating inequities)
- Recognition of land costs in jurisdictions
- Recognition of existing affordable housing
- Separate numbers for Silverdale, CK, and Kingston + unincorporated UGAs
- Station area planning along the planned HCT routes
- Housing Action Plans
- Excluding new construction of <80% AMI in rural areas and measures to strive to prevent displacement of existing <80% AMI housing
- Individual jurisdictions' conversations
